EDUCATION

Virginia Tech

Expected Graduation: May 2027

Bachelor of Science in Business: Business Information Technology

GPA: 3.7/4.0

Honors/Awards: RSM Excellence Academy Cohort, Pamplin Inspire Scholarship, PMDC Case Participant, RSM Capstone Case Winner

Skills: Agile, Jira, Java, SQL, Python, HTML, React, GIT, Excel, Miro, Stakeholder Management, Power BI, Tableau, Azure, Tech Strategy

WORK EXPERIENCE

Venus | **Founder** | Blacksburg, VA

January 2026 – Present

- Founded Venus, a college blind dating app where matched pairs exchange progressive hints, mutually opt in, then meet in person through a GPS-verified reveal
- Engineered a two-layer matching algorithm that filters on dealbreakers, then scores compatibility across 22 weighted dimensions for best overall fit
- Architected a 20-table Postgres backend with row-level security and server-enforced state machines, stress-tested at 50 users with 307ms match times

RSM | **Tech Risk Consulting Intern** | Minneapolis, MN

Summer 2026

- Tracked AI governance risk assessments across 9 client engagements, surfacing regulatory and compliance considerations shaping responsible AI adoption for clients
- Tested 50+ ITGC and ITACS controls across multiple client systems, reconciling user permissions and authentication settings against approved access listings to flag provisioning and terminated-access exceptions
- Supported 6 process walkthroughs with client owners, documenting end-to-end processes and mapping gaps in ownership and handoffs

RSM | **Digital Solutions Intern** | Minneapolis, MN

Summer 2025

- Interviewed 15+ consultants to shape dashboard requirements, surfacing insights like strong work-life balance and healthy project loads, adopted by the DDS team and presented to leadership
- Queried and consolidated consultant data via SQL and Excel, then built a Power BI employee experience dashboard tracking 10+ KPIs
- Built Miro roadmaps and Jira sprint tracking across the Product Management, Software Engineering, and Enterprise AI teams, giving stakeholders visibility into workflow status they didn't have before

Electronic Arts | **Product Management Extern** | United States (Remote)

Winter 2025

- Selected 8+ high-impact KPIs to diagnose core business problems for a strategy RPG mobile game, clarifying performance drivers and player behavior patterns
- Presented data-driven, feature-level recommendations to improve gameplay, retention, and product health, informing feature priorities

Accenture | **Tech Consulting Extern** | United States (Remote)

Spring 2024

- Conducted 10+ stakeholder interviews to capture customer needs, translating input into functional requirements presented to the project team for an online voting system
- Mapped 3 process flows and Tableau dashboards; authored user stories and acceptance criteria presented to guide Agile delivery

PROJECTS

Arrivals – Letterboxd for Cities

Fall 2026

- Designed and shipped a full product from concept to launch, researching how users naturally compare head-to-head experiences rather than rate them in isolation
- Applied a comparison-based ranking approach (binary search), cutting user effort 60%+ versus traditional rating flows and improving onboarding completion

SaaS Subscription Business Analysis (Netflix Case Study)

Fall 2025

- Led an independent analysis of Netflix's subscription strategy, synthesizing 4 years of public financial data (FY2021–FY2024) into pricing and growth insights
- Evaluated Netflix's competitive position across pricing, regional revenue, and content strategy, structuring findings into a 10-chapter interactive case study built entirely from public financial data

LEADERSHIP

Undergraduate Teaching Assistant, Pamplin Engage Program

Fall 2024 – Spring 2025

- Supported 2 semesters of Foundations of Business by leading weekly review sessions, guiding discussions for 100+ students, and assisting with course delivery during instructor absences to ensure overall continuity in learning
- Held 2–3 weekly office hours, offering one-on-one guidance on core business concepts and detailed feedback on assignments and class activities to support academic development
